## PERSONAL SUMMARY

I am a computer systems engineering graduate who is a dynamic individual willing to get things done and accumulate knowledge as I do so. I possess different programming languages as C++, HTML5, CSS, JavaScript, PHP, Python. I am a greatly motivated and a self-disciplined individual, committed to achieving high standards of competency and professionalism in whatever I do. I am currently a freelance web developer while I seek challenging opportunities where I can fully use my skills for the success of the organization.

## DUTIES

- Reviewing and analysing Raptor Systems functionality.
- Decide on Dell 3001 edge gateway device Raptor Functionality Program either mini or full Raptor
- Program Dell 3001 edge gateway device accordingly to the specified functional required on the project functionality document using Linux
- Each programmed Dell 3001 edge gateway device is then assembled as a Raptor system
- Assembled Raptors are quality tested if all components are installed the right way
- Raptors are sent to functionality testers who test if the Dell 3001 edge gateway device is programmed correctly and all components are working correctly
- Raptors are packaged and sent to sites where engineers install them on various Vodacom network towers

## COURSES ATTENDED

### MICROSOFT THINTIMILLION PROGRAM

**Course:** Microsoft Digital Literacy Productivity Program

**Year:** 2022

### GAUTENG MICROSOFT AZURE PROGRAM

**Course:** Microsoft Azure Fundamentals

**Year:** 2021

## **AREAS OF EXPERTISE**

- Web development
- Web design UI
- Mobile App Front end design
- Raptor Assembly
- Raptor programming
- Raptor Quality Testing

## **EDUCATION**

**Institution:** Tshwane University of Technology

**Qualification:** National Diploma Computer System Engineering

**Year obtained:** (June 2021)

**Major Courses/Subjects:** Programming(C++) ,Software Engineering, Digital Systems, Digital Process Control, Networks, Database Principles and Systems analysis.

**School:** Azwifarwi Secondary School

**Certificate Obtained:** Bachelor

**Year Obtained:** 2015

## **WORK EXPERIENCE**

**Job Title:** IT Support Engineer

**Company:** E-bitz Electronics Engineering Solutions

**Dates:** (August 2019 – August 2020)
